

# PRIVACY AND CONFIDENTIALITY

QUALITY AREA 7 | ELAA VERSION 1.0

## PURPOSE

This policy provides a clear set of guidelines:

- for the collection, storage, use, disclosure, and disposal of personal information, including photos, videos, and health information at Denzil Don Kindergarten
- to ensure compliance with privacy legislation
- on responding to requests for information to promote child wellbeing or safety and/or assess and manage risk of family violence (mandatory)
- on sharing and requesting information to promote child wellbeing or safety and/or manage risk of family violence.

## POLICY STATEMENT

### VALUES

Denzil Don Kindergarten is committed to:

- responsible and secure collection and handling of personal information
- protecting the privacy of each individual's personal information
- ensuring individuals are fully informed regarding the collection, storage, use, disclosure, and disposal of their personal information, and their access to that information
- proactively sharing information to promote the wellbeing and/or safety of a child or a group of children, consistent with their best interests

### SCOPE

This policy applies to the approved provider, persons with management or control, nominated supervisor, persons in day-to-day charge, early childhood teachers, educators, staff, students, volunteers, parents/guardians, children, and others attending the programs and activities of Denzil Don Kindergarten, including during offsite excursions and activities.

## PROCEDURES

### SHARING INFORMATION AND RECORD KEEPING UNDER THE CHID INFORMATION AND FAMILY VIOLENCE SHARING SCHEME – REFER TO ATTACHMENT 7

## BACKGROUND AND LEGISLATION

### BACKGROUND

Early childhood services are obligated by law, service agreements, and licensing requirements to comply with the privacy and health records legislation when collecting personal and health information about individuals.

The *Health Records Act 2001 (Part 1, 7.1)* and the *Privacy and Data Protection Act 2014 (Vic) (Part 1, 6 (1))* include a clause that overrides the requirements of these Acts if they conflict with other Acts or Regulations already in place. For example, if there is a requirement under the *Education and Care Services National Law Act 2010* or the *Education and Care Services National Regulations 2011* that is inconsistent with the requirements of the privacy legislation, services are required to abide by the *Education and Care Services National Law Act 2010* and the *Education and Care Services National Regulations 2011*.

In line with the Victorian Government's Roadmap for Reform, Education State reforms and broader child safety initiatives, *Part 6A* of the *Child Wellbeing and Safety Act 2005 (the Act)* was proclaimed in September 2018. The Act established the Child Information Sharing (CIS) Scheme, which enables sharing of confidential information between prescribed entities in a timely and effective manner in order to promote the wellbeing and safety of children. The Act also authorised the development of a web-based platform that will display factual information about children's participation in services known as the Child Link Register (to become operational by December 2021). The Child Link Register aims to improve child wellbeing and safety outcomes, monitor and support the participation in government-funded programs and services for children in Victoria.

Alongside the CIS Scheme, the *Family Violence Protection Act 2008* includes the Family Violence Information Sharing (FVIS) Scheme and the Family Violence Multi-Agency Risk Assessment and Management (MARAM) Framework, which enables information to be shared between prescribed entities to assess and manage family violence risk to children and adults. The MARAM Framework can be used by all services including ECEC services that come into contact with individuals and families experiencing family violence. The MARAM Framework aims to establish a system-wide shared understanding of family violence. It guides professionals across the continuum of service responses, across the range of presentations and spectrum of risk. It provides information and resources that professionals need to keep victim survivors safe, and to keep perpetrators in view and hold them accountable for their actions.

## DEFINITIONS

The terms defined in this section relate specifically to this policy. For regularly used terms such as Approved Provider, Nominated Supervisor, Notifiable complaints, Serious incidents, Duty of care, refer to the Definitions file on the kindergarten website.

**Child Information Sharing Scheme (CISS):** enables Information Sharing Entities (ISE) (*refer to Definitions*) to share confidential information about any person to promote the wellbeing and/or safety of a child or group of children. The CISS works in conjunction with existing information sharing legislative provisions. All Victorian children from birth to 18 years of age are covered. Unborn children are only captured when there has been a report to Child First or Child Protection. Consent is not required from any person when sharing under CISS. The CISS does not affect reporting obligations created under other legislation, such as mandatory reporting obligations under the *Children, Youth and Families Act 2005*.

**Child Safe Standards:** promotes the safety of children, prevent child abuse, and ensure organisations have effective processes in place to respond to and report all allegations of child abuse.

**Confidential information:** for the purposes of this policy, the CISS and FVISS, the health information and identifiers for the *Health Records Act 2001* and the personal information for the *Privacy and Data Protection Act 2014*, including sensitive information (such as a criminal record), and unique identifiers.

**Data breach:** unauthorised access or disclosure of personal information, or loss of personal information.

**Disclosure:** in the context of the Schemes; sharing confidential information for the purpose of promoting the wellbeing or safety of a child or group of children. In the context of family violence, this is defined as when someone tells another person about violence that they have experienced, perpetrated or witnessed.

**Family Violence Information Sharing Scheme (FVISS):** enables the sharing of relevant information between authorised organisations to assess or manage risk of family violence.

**Freedom of Information Act 1982:** legislation regarding access and correction of information requests.

**Health information:** any information or view regarding the physical, mental, or psychological health or ability (at any time) of an individual.

**Health Records Act 2001:** State legislation regulating the management and privacy of health information handled by public and private sector bodies in Victoria.

**Identifier/Unique identifier:** a number (usually) assigned by an organisation to an individual to identify that individual and reduce privacy concerns by avoiding the use of the person's name.

**Information Sharing Entities (ISE):** are authorised to share and request relevant information under the Child Information Sharing Scheme and the Family Violence Information Sharing Scheme (the Schemes) and required to respond to requests from other ISEs. All ISEs are mandated to respond to all requests for information.

**Multi-Agency Risk Assessment and Management Framework (MARAM):** sets out the responsibilities of the organisation in identifying, assessing, and managing families and guides information sharing under both CIS and FVIS schemes wherever family violence is present.

**Notifiable Data Breaches scheme (NDB):** a Commonwealth scheme that ensures any organisation or agency covered by the [Privacy Act 1988](#) notifies affected individuals and the Office of the Australian Information Commissioner (OAIC) when a data breach is likely to result in serious harm to an individual whose personal information is involved.

**Personal information:** recorded information (including images) or opinion, whether true or not, about a living individual whose identity can reasonably be ascertained.

**Privacy and Data Protection Act 2014:** State legislation that ensures responsible collection and handling of personal information in the Victorian public sector, including some organisations, such as early childhood services contracted to provide services for government. It provides remedies for interferences with the information privacy of an individual and establishes the Commissioner for Privacy and Data Protection.

**Privacy Act 1988:** Commonwealth legislation that operates alongside state or territory Acts and makes provision for the collection, holding, use, correction, disclosure, or transfer of personal information. The [Privacy Amendment \(Enhancing Privacy Protection\) Act 2012 \(Cth\)](#) introduced on 12 March 2014 has made extensive amendments to the [Privacy Act 1988](#). Organisations with a turnover of \$3 million per annum or more must comply with these regulations.

**Privacy breach:** an act or practice that interferes with the privacy of an individual by being contrary to, or inconsistent with, one or more of the Information Privacy Principles ([refer to Attachment 2](#)) or the new Australian Privacy Principles ([refer to Attachment 7](#)) or any relevant code of practice.

**Public Records Act 1973 (Vic):** legislation regarding the management of public sector documents.

**Risk Assessment Entity (RAE):** under FVISS, there is a subset of specialist ISEs known as Risk Assessment Entities that can receive and request information for a family violence assessment purpose. RAEs have specialised skills and authorisation to conduct family violence risk assessment, examples can include but not limited to Victorian Police, child protection, family violence service and some Orange Door services.

**Sensitive information:** information or opinion about an individual's racial or ethnic origin, political opinions, membership of a political association, religious beliefs or affiliations, philosophical beliefs, membership of a professional or trade association, membership of a trade union, sexual preference or practices, or criminal record. This is also considered to be personal information.

## ATTACHMENT 1. RECORD KEEPING AND PRIVACY LAWS

Early childhood services must ensure that their processes for collection, storage, use, disclosure and disposal of personal, sensitive and health information meet the requirements of the appropriate privacy legislation and the [Health Records Act 2001](#).

- The following are examples of records impacted by the privacy legislation:
- **Enrolment records:** [Regulations 160, 161 and 162](#) of the [Education and Care Services National Regulations 2011](#) detail the information that must be kept on a child's enrolment record, including personal details about the child and the child's family, parenting orders and medical conditions. This information is classified as personal, sensitive and health information ([refer to Definitions](#)) and must be stored securely and disposed of appropriately.
- **Attendance records:** [Regulation 158](#) of the [Education and Care Services National Regulations 2011](#) requires details of the date, child's full name, times of arrival and departure, and signature of the person delivering and collecting the child or the Nominated Supervisor/educator, to be recorded in an attendance record kept at the service.
- **Medication records and incident, injury, trauma and illness records:** [Regulations 87 and 92](#) of the [Education and Care Services National Regulations 2011](#) require the Approved Provider of a service to maintain incident, injury, trauma and illness records, and medication records which contain personal and health information about the child.
- **Handling and storage of information:** authorised employees and the Approved Provider require secure storage for personal and health information. Documents might be required to be stored off the service premises. Wherever confidential information is stored, it is important that it is not accessible to unauthorised staff or other persons. When confidential information is required to be taken off-site (e.g. on excursions, a list of children with medical conditions and contact numbers will be required), consideration must be given to how it is transported securely.
- **Electronic records:** It is important that electronic records containing personal, sensitive or health information are stored in password protect folders or platforms and are only accessible by authorised personnel. Services need to incorporate risk management measures to ensure that passwords are stored safely and are only accessible by authorised persons ([refer to the Information Technology Policy](#)).
- **Forms:** any form used to collect personal, or health information should have the service's Privacy Statement ([refer to Attachment 4](#)) attached.
- **Collecting information for which there is no immediate use:** only information required and for which there is a specific purpose should be collected by the service. Services should not collect information that has no immediate use, even though it may be useful in the future.

## ATTACHMENT 2. PRIVACY PRINCIPLES IN ACTION

Your organisation may have to comply with more than one set of privacy obligations listed below. For example, an organisation that has a contract with a Victorian government agency may need to comply with the Australian Privacy Principles [AAP] (*Privacy Act, 1988*) as well as the Information Privacy Principles [IPP] (*Privacy and Data Protection Act, 2014*), and the Health Privacy Principles [HPP] (*Health Records Act, 2001*).

### The Australian Privacy Principles

The APPs are legal obligations under federal Privacy Laws. They apply to every Australian organisation and federal government agency that meets the qualifying criteria below:

- it has an annual turnover of more than \$3 million
- it provides a health service (which is broadly defined) to a person (even if the organisation's primary activity is not providing that health service)
- it trades in personal information (for example, buying or selling a mailing list)
- it is a contracted service provider under a Commonwealth contract (for example, an aged care provider or a disability services provider under a Commonwealth agreement)
- it is a credit reporting body
- it operates a residential tenancy database
- it is a reporting entity for the purposes of the Anti-Money Laundering and Counter-Terrorism Financing Act 2006 (Cth) (AML/CTF Act)
- it is an employee association registered or recognised under the Fair Work (Registered Organisations) Act 2009 (Cth)
- it is a business that conducts protection action ballots
- it is a business prescribed by the Privacy Regulation 2013
- it is related to a body corporate (for example, a subsidiary) that meets any of the above criteria (even if your not-for-profit itself does not), or
- it has opted into the Privacy Act (choosing to comply, despite not meeting any of the above criteria)

### The Information Privacy Principles

The IPPs are relevant for all Victorian public sector organisations, as well as some private or community sector organisations, where those organisations are carrying out functions under a State contract with a Victorian public sector organisation.

A State contract means a contract between an organisation (e.g. the Department of Education and Training) and a Contracted Service Provider [CSP] (e.g. an Approved Provider) under which services are provided by the CSP for the organisation (e.g. a funded Kindergarten Program).

### The Health Privacy Principles

Victoria has specific Health Privacy Laws that provide a higher standard of protection of certain health information. Early Childhood Education and Care services collect, hold and use health information, therefore are required to follow the HPP under the Health Records Act, 2001.

### Principles in Action

Organisations need to make sure their policy and procedures are consistent with all the Privacy Laws that apply to their organisation. If you're not sure, you should get legal advice.

The Child Information Sharing Scheme and Family Violence Information Sharing Scheme makes certain modifications to the Information Privacy Principles and the Health Privacy Principles to ensure that the scheme is able to operate as intended.

The table below is a reference tool that identifies how all three legislations can work together and what it may look like in practice.

Australian Privacy Principles	Information Privacy Principles	Health Privacy Principles	Principles in action
<b>APP 1 – Open and transparent management of personal information</b>	IPP 5: Openness	Principle 5 Openness	Denzil Don Kindergarten has an up-to-date <i>Privacy and Confidentiality policy</i> that clearly sets out how we collect, use, disclose and store personal and health information. Stakeholders have access to this policy at any time, upon request.
<b>APP 2 – Anonymity and pseudonymity</b>	IPP 8: Anonymity	Principle 8 Anonymity	Wherever it is lawful and practicable, individuals and families will have the option of not identifying themselves when entering into transactions with Denzil Don Kindergarten. This may include surveys, feedback and so on.
<b>APP 3 Collection of solicited personal information and APP 4 – Dealing with unsolicited personal information</b>	IPP 1: Collection IPP 10: Sensitive information	Principle 1 Collection	<p>Denzil Don Kindergarten will only collect the personal, sensitive and health information needed, and for which there is a purpose that is legitimate and related to the service’s functions, activities and/or obligations.</p> <p>Personal, sensitive and health information about children and parents/guardians either in relation to themselves or a child enrolled at the service, will generally be collected via forms filled out by parents/guardians. This can include but not limited to Enrolment Records, Registration Forms, Medical Management Plans, Risk Minimisation Plans, Communication Plans, Attendance Records, Staff Records, Visitor Sign-in book and so on.</p> <p>Information may be collected from job applicants, face-to-face interviews and telephone conversations. Individuals from whom personal information is collected will be provided with a copy of the service’s <i>Privacy Statement (refer to Attachment 4)</i>.</p> <p>When Denzil Don Kindergarten receives personal information (<i>refer to Definitions</i>) from a source other than directly from the individual or the parents/guardians of the child concerned, the person receiving the information will notify the individual or the parents/guardians of the child to whom the information relates to. Denzil Don Kindergarten will advise that individual of their right to share/not share this information.</p> <p>Sensitive information (<i>refer to Definitions</i>) will be collected only for the purpose of enabling the service to provide for the education and care of the child attending the service.</p> <p>CISS &amp; FVISS: information sharing entities are not obliged to collect personal or health information about an individual directly from that person if they are collecting the information from another information sharing entity under the scheme.</p>

			<p>If an information sharing entity collects personal or health information about a person from another information sharing entity under the scheme, it will not be obliged to take steps to notify that person that their information has been collected if doing so would be contrary to the promotion of the wellbeing or safety of a child.</p> <p>Information sharing entities will not be obliged to obtain consent from any person before collecting information under the scheme, including 'sensitive information' if they are sharing in accordance with the scheme.</p>

## ATTACHMENT 3. EMPLOYEE LETTER OF ACKNOWLEDGEMENT AND UNDERSTANDING

The attached Denzil Don Kindergarten *Privacy and Confidentiality Policy*, which outlines how the service will meet the requirements of the *Victorian Health Records Act 2001* and the *Privacy and Data Protection Act 2014 (Vic)* (or where applicable, the *Privacy Act 1988 (Cth)*), The Child Information Sharing Scheme under Part 6A of the *Child Wellbeing and Safety Act 2005* and the Family Violence Information Sharing Scheme under Part 5A of the *Family Violence Protection Act 2008* in relation to both personal, sensitive and health information.

Employees have an important role in assisting the kindergarten to comply with the requirements of the privacy legislation by ensuring they understand and implement Denzil Don Kindergarten's *Privacy and Confidentiality Policy*. Employees need to ensure they are aware of their responsibilities in relation to the collection, storage, use, disclosure, disposal of personal and health information and the requirements for the handling of personal and health information, as set out in this policy. All employees are required to read this policy, sign this *letter of acknowledgement*, and return it to the Centre Coordinator. The form will be filed with your records.

## ATTACHMENT 4. PRIVACY STATEMENT

We believe your privacy is important.

Denzil Don Kindergarten's *Privacy and Confidentiality Policy* details how we collect, use, disclose, manage and transfer personal information, including health information. This policy is available on our website and on request.

To ensure ongoing funding and licensing, our service is required to comply with the requirements of privacy legislation in relation to the collection and use of personal information. If we need to collect health information, our procedures are subject to the *Health Records Act 2001*.

The Child Information and Family Violence Information Sharing Scheme allows Early Childhood Services to freely request and share relevant information with Information Sharing Entities to support a child or group of children's wellbeing and safety when the threshold test has been met.

### Purpose for which information is collected

The reasons for which we generally collect personal information are given in the table below.

Personal information and health information collected in relation to:	Primary purpose for which information will be used:
Children and parents/guardians	<ul style="list-style-type: none"><li>To enable us to provide for the education and care of the child attending the service</li><li>To manage and administer the service as required</li></ul>
The Approved Provider if an individual, or members of the Committee of Management/Board if the Approved Provider is an organisation	<ul style="list-style-type: none"><li>For the management of the service</li><li>To comply with relevant legislation requirements</li></ul>
Job applicants, employees, contractors, volunteers and students	<ul style="list-style-type: none"><li>To assess and (if necessary) to engage employees, contractors, volunteers or students</li><li>To administer the individual's employment, contracts or placement of students and volunteers</li></ul>

*Please note that under relevant privacy legislation, other uses and disclosures of personal information may be permitted, as set out in that legislation.*

### Disclosure of personal information, including sensitive and health information

Some personal information, including health information, held about an individual may be disclosed to:

- government departments or agencies, as part of our legal and funding obligations
- local government authorities, for planning purposes
- organisations providing services related to employee entitlements and employment
- insurance providers, in relation to specific claims or for obtaining cover
- law enforcement agencies
- health organisations and/or families in circumstances where the person requires urgent medical assistance and is incapable of giving permission
- anyone to whom the individual authorises us to disclose information.
- information sharing entities to support a child and a group of children's wellbeing and safety.

### Laws that require us to collect specific information

*The Education and Care Services National Law Act 2010* and the *Education and Care Services National Regulations 2011*, *Associations Incorporation Reform Act 2012 (Vic)* and employment-related laws and agreements require us to collect specific information about individuals from time-to-time. Failure to provide the required information could affect:

- a child's enrolment at the service
- a person's employment with the service
- the ability to function as an incorporated association.

### **Access to information**

Individuals about whom we hold personal, sensitive or health information can gain access to this information in accordance with applicable legislation. The procedure for doing this is set out in our *Privacy and Confidentiality Policy*, which is available on request.

For information on the *Privacy and Confidentiality Policy*, please refer to the copy available at the service or contact the Approved Provider/Centre Coordinator or Nominated Supervisor.

## ATTACHMENT 5. PERMISSION FORM: PHOTOGRAPHS AND VIDEOS (REQUESTED ELECTRONICALLY)

### Background information

Photographs and videos are classified as 'personal information' under the [Privacy and Data Protection Act 2014](#).

The purpose of this permission form is to:

- notify parents/guardians as to who will be permitted to take photographs/videos, where these will be taken and how they will be used.
- comply with the privacy legislation in relation to all photographs/videos taken at the service, whether by the Approved Provider, Nominated Supervisor, Persons in Day to Day Charge, educators, staff, parents/guardians, volunteers or students on placement
- enable photographs/videos of children to be taken as part of the program delivered by the service, whether group photos, videos or photos at special events and excursions.

### Photographs/videos taken by staff

Staff at the service may take photographs/videos of children as part of the program. These may be displayed at the service, on the Denzil Don Kindergarten website or placed in the service's publications or promotional material to promote the service, or for any other purpose aligned to the service's business operations. Staff use learning journals in which photographs are included.

When the photographs/videos are no longer in use or no longer required, the service will destroy them, or otherwise store them securely at the service. It is important to note that while the service can control the use and disposal of photographs we organise, the service has no control over photographs taken by parents/guardians of children attending the service program or activity.

### Group photographs/videos taken by parents/guardians

Parents/guardians may take group photographs/videos of their own child(ren) at service events such as excursions and other activities. Parents must ensure that where the photographs/videos include other children at the service they are sensitive to and respectful of the privacy of those children and families in using and disposing of the photographs/videos.

### Photographs taken by a photographer engaged by the service

A photographer may be engaged by the service to take individual and/or group photographs of children. Information will be provided to parents/guardians prior to the event including the date and the photographer's details.

### Photographs/videos for use on the Denzil Don Kindergarten website and other internal/external publications

Individual permission from parents/guardians will, on every occasion, be obtained prior to a child's photograph being taken and used in any internal or external media publication, including the service newsletter and/or website.

### Photographs/videos taken by students on placement

Students at the service may take photographs/videos of children as part of their placement requirements.

### Access to photographs/videos

Access to any photographs or videos, like other personal information, is set out in the service's [Privacy and Confidentiality Policy](#), which is displayed at the service and available on request.

### Confirmation of consent

I consent/do not consent to the arrangements for the use of photographs and/or videos, as stated in this permission form.

## ATTACHMENT 6. PERMISSION NOTICE FOR PUBLICATIONS/MEDIA (REQUESTED ELECTRONICALLY)

## ATTACHMENT 7. SHARING INFORMATION UNDER THE CISS AND FVISS

This attachment has been developed based on the Information Sharing and Family Violence Reforms Contextualised Guidance for education and care services; all schools; system and statutory bodies; and education health, wellbeing and inclusion workforces, September 2020.

### Applying the threshold test

Before sharing information with other Information Sharing Entities (ISE)'s, threshold test requirements must be met.

The requirements for sharing are different depending on the purpose of the sharing, if sharing for both purposes (Child Wellbeing or Safety and/or Family Violence), you must meet the requirements of each of the schemes.

**Although child wellbeing and safety takes precedence over an individual's privacy, privacy must still be protected through careful and selective information sharing.**

### Threshold requirements for the Child Information Sharing Scheme:

<b>1</b>	The information sharing entity is requesting or disclosing confidential information about any person for the purpose of promoting the wellbeing or safety of a child or group of children; and
<b>2</b>	The <b>disclosing</b> information sharing entity reasonably believes that sharing the confidential information may assist the receiving information sharing entity to carry out one or more of the following activities: <ul style="list-style-type: none"><li>• make a decision, an assessment or a plan relating to a child or group of children</li><li>• initiate or conduct an investigation relating to a child or group of children</li><li>• provide a service relating to a child or group of children</li><li>• manage any risk to a child or group of children; and</li></ul>
<b>3</b>	The information being <b>disclosed</b> or <b>requested</b> is not known to be 'excluded information' under Part 6A of the Child Wellbeing and Safety Act (and is not restricted from sharing by another law), information that could: <ul style="list-style-type: none"><li>• endanger a person's life or result in physical injury</li><li>• prejudice a police investigation or interfere with the enforcement or administration of the law; prejudice a coronial inquest; prejudice a fair trial of a person</li><li>• be legally privileged</li><li>• reveal a confidential police source</li><li>• contravene a court order</li><li>• be contrary to the public interest</li><li>• information sharing would contravene another law.</li></ul>

### Threshold requirements for the Family Violence Information Sharing Scheme:

<b>1</b>	<p><b>The purpose of sharing is to assess family violence risk OR protect victim survivors from family violence risk.</b></p> <p>There are two purposes for which information can be shared between ISEs:</p> <ul style="list-style-type: none"><li>• Family violence assessment purpose: the purpose of establishing or assessing the risk of a person committing family violence or being the subject of family violence. This would include:<ul style="list-style-type: none"><li>○ establishing family violence risk</li><li>○ assessing the risk to the victim survivor</li></ul></li></ul>
----------	--

	<ul style="list-style-type: none"> <li>○ correctly identifying the perpetrator.</li> <li>● Family violence protection purpose: once family violence risk is established, to manage the risk to the victim survivor. This includes information sharing to support ongoing risk assessment.</li> </ul>
2	<p><b>The applicable consent requirements are met.</b></p> <p>Is the consent required when a child is at risk of family violence?</p> <ul style="list-style-type: none"> <li>● Consent is not required from any person to share information relevant to assessing or managing family violence risk to a child. However, you should seek the views of the child and non-violent family members where it is safe, reasonable and appropriate to do so.</li> <li>● Where a student is 18 years of age or older, they are an adult and so you may need their consent to share their information, or the information of third parties, unless you can legally share under existing privacy laws or when there is a child at risk.</li> </ul> <p>In situations where an adolescent is using family violence against an adult family member, you may need the consent of the adult victim survivor to share their information.</p>
3	<p><b>The information is not excluded information.</b></p> <p>Excluded information is information that could:</p> <ul style="list-style-type: none"> <li>● endanger a person’s life or result in physical injury</li> <li>● prejudice a police investigation or interfere with the enforcement or administration of the law; prejudice a coronial inquest; prejudice a fair trial of a person be legally privileged</li> <li>● reveal a confidential police source</li> <li>● contravene a court order</li> <li>● be contrary to the public interest</li> </ul> <p>information sharing would contravene another law.</p>

### Making a request to another Information Sharing Entity

**Before disclosing information under the Child Information Sharing Scheme and Family Violence Information Sharing Scheme, it is important that information sharing entities take reasonable care to verify the identity of the professional or service and ensure that they are an information sharing entity.**

- The ISE list is a searchable database that can be used to identify organisation and services prescribed under the CISS and FIVSS
- Before making a request, check to see if the organisation is a prescribed entity via the [Access the ISE list](#)
- Refer to [Information Sharing Entity List Uses Guide](#) on how to navigate the database.
- ISE’s should respond to requests for information in a timely manner, including when they are declining to provide information in response to the request.
- If an ISE is declining a request from another ISE, they are required to provide written reasons for doing so.

### Making a request or receiving a request under the Child Information Sharing Scheme

An ISE may request information when it meets the first and third parts of the threshold. That is, the information being requested is:

- to promote the wellbeing or safety of a child or group of children
- not excluded information under the Child Information Sharing Scheme to their knowledge.

ISE should use professional judgement to decide which organisation or service to request information from, taking into account the following:

- the activity the requesting information sharing entity is seeking to undertake and the type of information that may assist them
- the roles and responsibilities of other information sharing entities and the information they are likely to hold

- the currency and relevance of the information other information sharing entities are likely to hold.

The ISE requesting the information should provide sufficient detail to enable the responding ISE to make a decision about whether all three parts of the threshold have been met, in order to assist them to:

- identify relevant information to respond to the request
- form an opinion about whether the information may be disclosed under the CISS (whether the disclosure meets the threshold).

When making a request, an ISE may disclose any confidential information that may assist the responding ISE to:

- identify the information they hold that is relevant to the request
- form an opinion on whether the information may be disclosed under the scheme.

If the legal requirements (or threshold) of the scheme are met, an ISE:

- **may** make requests for information to another ISE
- **must** disclose relevant information to another ISE, if requested
- **may** disclose information voluntarily (proactively) to other ISE's

ISE's will use their expertise and exercise their professional judgement to identify:

- the range of needs and risks that impact on a child's life to inform a decision as to whether the threshold is met
- what and how much information to share
- who to share with to support improved service delivery and promote the wellbeing or safety of the child(ren).

### **Making a request or receiving a request under the Family Violence Information Sharing Scheme**

Under Part 5A of the *Family Violence Protection Act 2008* (FVPA), ISEs may request or share information with other ISEs about a person that is relevant to assessing or managing a family violence risk. The information may relate to a victim survivor (adult or child), alleged perpetrator/perpetrator or third party.

Only information that is **relevant** to assessing or managing a risk of family violence can be shared under the Scheme. In determining what information is relevant, practitioners should use their professional judgement and refer to the *Family Violence Policy*.

Where an ISE receives a request, it **must** share that information, either verbally or in writing, provided that the information meets the requirements (the threshold) of the Scheme. The onus is on the ISE sharing information to ensure that they are disclosing information about a person in accordance with the law. There is no restriction on an ISE making a request.

If there is no existing relationship with the ISE the information is being requested from, verification may need to take place (e.g. by sending an email with the entity's official account).

There are **two purposes** for which ISEs can share information with each other under the FVPA, Part 5A:

- a. for family violence assessment purposes
  - Only prescribed risk assessment entities (RSE) (see Definition) are entitled to make requests and receive information for a family violence assessment purpose, which focuses on identifying who the 'actual' perpetrator and victim survivor are and establishing the level of risk the perpetrator poses to the victim survivor

**OR**

- b. for family violence protection purposes
  - Any prescribed ISE is permitted to request and receive information for a family violence protection purpose. The focus at this stage is about managing the risk of the perpetrator committing family violence or the victim survivor being subjected to family violence. This could include information sharing as part of ongoing risk assessment.

Once it has been established which purpose the information is to be exchanged, ensure that:

- sufficient information is provided to the ISE to help them identify what information they hold that might be relevant and whether they should disclose that information.
- the purpose of the information is clearly identified and why it is believed the information is relevant

- precedence is given to a victim survivor’s right to be safe from family violence when discussing relevant information.
- record keeping is completed, including the name of the service that was contacted, the name of the ISE and the information that was disclosed.
- any risk assessment or safety plan are documented, as a result of the information sharing.
- information is used only for a purpose permitted by law.
- if information request is refused, record this refusal in writing and keep this refusal on file.

### Sharing information for risk assessment

Once a reasonable belief has been established that family violence risk is present and the identity of the perpetrator or victim survivor/s are clear (e.g. the victim survivor has identified the perpetrator), this would enable any ISE to make referrals for specialist services or professionals to complete a comprehensive family violence risk assessment. Some of these specialist services are prescribed as Risk Assessment Entities (RAEs) (*refer to Table 1*).

ISEs can share relevant information proactively or on request with RAEs for risk assessment purposes. That is, in order to:

- confirm whether family violence is occurring
- enable RAEs to assess the level of risk the perpetrator poses to the victim survivor
- correctly identify the perpetrator who is using family violence.

Family violence risk assessment is an ongoing process and is required at different points in time from different service perspectives. Education and care services will have a role in working collaboratively with other services to contribute to ongoing risk assessment and management of family violence.

Figure 1: Overview of activities when sharing information for risk assessment

Victoria State Government, 2021. *Information Sharing and Family Violence Reforms Contextualised Guidance*. Melbourne, p.38.

ISEs can only share information with other ISEs that are not RAEs. Request information from RAEs once family violence risk is established and the identity of the perpetrator and victim survivors are known. This is to prevent sharing that might escalate risk to a child or family member.

### Sharing for risk management (protection):

Once family violence is established, ISEs can share proactively with other ISEs and request information, including from RAEs, if they reasonably believe sharing is necessary to:

- remove, reduce or prevent family violence risk
- understand how risk is changing over time
- inform ongoing risk assessment.

This opens a two-way flow of information that enables ISEs to form a complete picture of risk and collaborate to support children and families experiencing family violence.

Figure 2: Overview of activities when sharing information for risk management (protection)

When making a request, ensure you are speaking with someone suitably trained to use Part 5A of the Family *Violence Protection Act 2008* (FVPA).

## Record keeping

ISEs have specific record keeping obligations under the FVISS and the CISS. ISEs can choose how they will meet their record keeping obligations, which might include written or online case notes, specific record keeping forms or IT solutions, and are in line with the *Privacy and Data Protection Act 2014 (Vic)* and, where applicable, the Australia Privacy Principles obligations.

When an ISE receives a request to share information they must record:

- the ISE that requested the information
- the date of the request
- the information that was requested
- if refusing a request, the request and the reason why it was refused.

When an ISE shares information (either proactively or on request) they should:

- know and record what scheme they are sharing under (FVISS, CISS or both)
- know and record whom information is being shared about
- record how the threshold for sharing was met.
- relevant risk assessments or safety plans that have been prepared for a person at risk of family violence.

Documentation is also required if sharing about:

- adult victim survivors of family violence or third parties under FVISS (where a child is at risk)
- a child’s parent under CISS
- child victim survivors of family violence
- any child in order to promote their wellbeing or safety.
- whether their views were sought about sharing their information
- if their views were not sought, record the reason why

- if they were informed that their information was shared
- whether information was shared with consent and whether the consent was written, verbal or implied
- if the information was shared without consent, record the reason why
- if the information was shared without consent, record if the person was informed that their information was shared without consent

Examples of record keeping forms can be found at: [www.vic.gov.au/guides-templates-tools-for-information-sharing](http://www.vic.gov.au/guides-templates-tools-for-information-sharing)

## Handling information sharing and risk assessment complaints under the CISS and FVISS

Types of complaints

ISEs may receive complaints from:

1. Individuals in relation to privacy breaches, for example the ISE has:
  - misidentified an adult victim survivor as a perpetrator and shared information about them without consent
  - shared information that is not relevant to the purpose for which it was shared.
2. Individuals in relation to any other conduct under the Schemes, for example the ISE has:
  - not sought the views of a child and/or relevant family member and the complainant believes it was reasonable, safe and appropriate to do so
  - in the view of the complainant, failed to foster positive relationships between a child and significant people in the child's life, in the way they applied the Schemes.
3. Other ISEs in relation to how the ISE is sharing information under the Schemes. For example, an ISE may make a complaint about:
  - another ISE refusing to share relevant information that should be shared
  - the timeliness of responses.

## Complaints record keeping

The following information must be recorded if a complaint is received under the Schemes:

- date the complaint was made and received
- nature of the complaint
- action taken to resolve the complaint
- action taken to lessen or prevent the issue from recurring
- time taken to resolve the complaint
- if the complaint was not resolved, further action that was taken

**Note:** accepted standard practice is that a response should be provided within 30 days of receiving the complaint. All complaints must be handling according to the [Privacy and Data Protection Act 2014 \(Vic\)](#) and, where applicable, the Australia Privacy Principles
